Queensland 4035

A few years ago, several people with a passion to see the lost come to a knowledge of Christ, came together and proposed to reach into the country of

Moldova, praying to bring about a Godly change within that nation. How was this to happen? This small planted seed, watered with prayer, became a reality when a Christian group from the Baltse University combined with "From Seed To Trees" and began working together with this very same vision in mind.

As well as an outreach into the University, the 'seed' also developed into a ministry within the local churches and their many outreaches. From slow beginnings, these initial 'seeds' were blessed to the point where we were able to raise finance to purchase a needy Administration Unit just 75 metres from the University entrance.

God is on the move in Eastern Europe, with opportunities in Romania and Belarus. From Seed to Trees is challenging students and recent graduates to be witnesses for Jesus in a society where corruption is widespread. English teaching classes to High School students and Community groups enables a positive presentation of the Gospel message to many people.

We also work in Vietnam in partnership with 'Samaritan's Purse Vietnam' and 'Youth With a Mission Vietnam.' This expansion into new countries is providing many opportunities, creating a problem:

We need new people to become involved in a variety of roles, so that these goals can be realised. Committed supporters are needed to go with teams into these and many other regions to share Jesus.
